Clinics for September 27 meeting

Building Molds & Pouring Resins
by Bob Hayes

Bob will cover hard and rubber castings exploring methods and materials for molds and several kinds of resins using Alumilite products.

Bob is a very talented modeler who focuses on custom designs of model cars and vehicles with emphasis on 50's and 60's hot rods, highly detailed.

Molds and resins traverse all types of model building ...

We should have an opportunity to better understand good techniques and products available for molds and castings.

This clinic will offer opportunity for those who desire to participate in “hands on” use of the products.

Wear old clothes!

View Bob's website at <http://public.fotki.com/molderone>

Next Meeting October 25th

September 2011 Newsletter - Turkey Creek Division

Hello Everyone.

August brings September and September brings the Fall ... although the first few days were hard to realize we did not backspace to July! Where has this year gone?

We had a very good meeting August 23rd with 34 in attendance. Welcome Michael Moran first time. Hope you come again. A recap of the Annual Train Show followed with preliminary financial results of the Meet and Train Show. It looks like we made \pm \$400, but not all the bills are in. Jack Boren is resigning as our paymaster effective August 31st as his NMRA membership expires, and Jack Ferris has agreed to finish out this year. Be thinking, we need a new paymaster. Please consider volunteering if you can keep track of numbers.

Congratulations modelers! We had 10 merit awards from the contest room.

Bob McBean received 3 merit awards for structures.

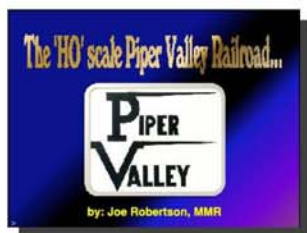

Don Bronec received 2 merit awards for structures.

- Dr. Vance Reed received a merit award for structures.
- Joel Priest received 4 merit awards (our youngest modeler).

"Yardmaster Diehl" liked to never got the computer system to work. Thank God for "techi" Joe Robertson MMR, or he would have never gotten his clinic started. Once rolling, Joe made a very good presentation showing his Piper Valley RR. Photo work was done by Ron Morse MMR. I believe Joe's layout is going to appear in one of our major publications in the near future. That's great!!! Congratulations Joe!

Miles Hale MMR gave a presentation on "Stanton S-Cab". Very unique and very innovative! Basically a DCC system run by radio control. No track wiring needed! Engines will run on the table with no track! This will give a whole new meaning to rail collisions and disasters. The system is being distributed by NWSL products. Try website www.nwsl.com for more information and details.

Larry Diehl made a photo presentation of the model contest at NMRA National Convention in Sacramento. There were some very fine models displayed and as stated in last month's newsletter, Turkey Creek members made a real good showing in the West Coast's boy's backyard.

As we discussed, we are looking for a new location for 2012 Annual Train Show. I requested help and you all have responded. Two potential sites have been brought forward by Roger Percival and Gary Hankins. The details of our needs could be an issue, so please don't stop looking and thinking of options. This is very important to our organization. The costs at the Lenexa Community Center will be rising next year significantly, and it's questionable if we can afford it.

September 27th, our next meeting, we will have a unique clinic on Molds & Resins with hands on opportunities. Mr. Bob Hayes is a very good modeler from Topeka, with a lot of experience using Alumilite products and will demonstrate and ask persons to participate in mixing and pouring several kinds of resins, to include rubber he uses for tires. Wear old clothes. Bring latex gloves if you feel the need. We should have plenty of resins for those who want to try the products. We expect this will take over an hour, so no other clinics anticipated. Hope everyone can make this! It should be informative and interesting.

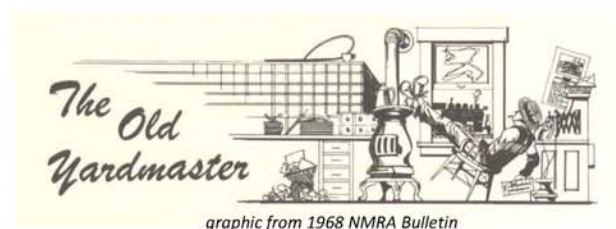

I understand that Bob Jefferis has fallen and hurt himself. Our thoughts are with you and hope for a speedy recovery. Pat Harriman will be having surgery on his hand before next meeting and we all wish Pat well with the procedure and a successful outcome.

Hope to see everyone September 27th.

Sincerely,

Larry W. Diehl
 Superintendent Turkey Creek & "Black Rock Yardmaster"
 (currently dodging the Red Bulls of October)

Greetings Modelers!

This is a reminder that we are planning for our first AP session for the Civil and Electrical certificates. I am combining these two as they tend to compliment each other and cover some of the same areas. The Civil Engineering certificate requires a certain amount of hand-laying track while the Electrical Engineering certificate asks you to demonstrate simple wiring of the track.

I am tentatively planning our first session at my home on Saturday, October 15th. If too few can make it on the 15th, I also have the 8th and 29th available.

So, we're going to work first with hand-laying track, including turn-outs and then later progress to wiring that same track-work. You will have a number of different types of track-work to choose from. For our first session, we will go over the actual certificate requirements and try to dispel any misconceptions about what is required. If we have time we'll begin discussing some of the basics in hand-laying track. It's not as hard as you might think.

I am providing a materials list, please review it and try to order the items you'll need early enough as sometimes it takes a while. Also, I am providing a link to my favorite website for hand-laid track, Fast-Tracks: <http://www.handlaidtrack.com/> You can also get supplies at Walthers: <http://www.walthers.com/>

At this time, it appears that turnout length ties are available, but regular HO ones are all back-ordered. You can search online for them or if you like. You can also use 3/32 x 3/32 bass sticks which are pretty close for HO. You'll need to cut them to length. If you're working in a different scale, try the websites and then if necessary scale the bass sticks up or down as needed. You will also need some sort of roadbed to build your track-work on. I use Homasote which I got a number of years ago at Schutte Lumber. You can get "HomaBed" which is ready-made Homasote cut for roadbed at: <http://www.homabed.com/> or <http://www.calroadbed.com/>

Materials List:

NMRA Track Gauge in your chosen scale (This NOT optional)

Standard gauge Ties:

Micro-Engineering (ME) HO Scale – Non-weathered 37-101 (1,000 per bag)

Kappler HO – Non-weathered KP00SS86 (1,000 per bag)

Turnout Length Ties:

ME - HO Non-weathered 37-102 (250 per bag)

Rail:

ME – HO Code – 83 weathered 16-083

Spikes:

ME "Small" 30-106

Railroad Collection for Sale

Pete's been gone almost 3 years and I need to start sharing his collection of Railroad books, buckles, art, kits, lanterns, locks, RR tools, etc. I've started a web site - petedyestate.net - and have listed books and buckles - and a few G-scale items. There is a lot more to come - it takes time and work.

Please check out the web site and see if anything is of interest. If you are looking for something special, let me know, and I'll see if I can find it. I'm finding more every time I open a drawer or a cabinet.

Thanks,
Tedy Bellos

Achievement Program Work Sessions

Starting in mid-September, I plan to start up the AP build sessions again. In the past we've built cars for the Master Builder Cars AP certificate. We all learned a lot and several very good cars came out of the build process.

We typically meet at my house once a month on Saturday at 1pm and work for about two hours. These sessions are usually relaxed and instructive.

This time we're going to work on the Civil and Electrical Engineering certificates. These two certificates compliment each other in their various tasks. We'll start the sessions with an overview of the AP requirements and try to take the mystery out of them. We'll follow up with additional sessions where we'll build track sections (switches, tangent track, crossovers etc.) depending on what you choose to build to fulfill the requirements for the certificate. We'll then follow all of that with wiring, including DCC friendly switches and the required wiring for the other track types. I will also use my own model railroad as an example of how these work.

In order to join in, please send me an e-mail at bmorneau@kc.rr.com or phone me at (913) 897-0669 and I'll get you the list of materials needed.

Brad Morneau, MMR

Great List to get information for NMR Members to get on

The following is a periodic reminder of the operating guidelines of the general@lists.nmra.org mailing list. It will be automatically posted once a month. If you do not wish to abide by these, you should unsubscribe.

Please send any comments to owner-general@lists.nmra.org.

Enjoy,
Eric Schnoebelen
listmaster@lists.nmra.org

General@lists.nmra.org is a general discussion list that exists for the sharing of model railroad, railroad information and Association matters pertaining to the interests of NMRA members.

It is a closed list open to NMRA members only. The member's first and last name and NMRA Member Number are required for joining.

General@lists.nmra.org is not an official 'Question and Answer'

list and all responses are to be considered opinions of the sender and not official NMRA positions unless so stated by someone with the authority to do so.

As this list exists to further communications between members from all levels and parts of the NMRA, the exchange of information about the promotion of the hobby and the NMRA is encouraged.

The NMRA is a family oriented organization. Spam, flame wars, personal attacks, posting of knowingly false and/or defamatory matter or other abusive or offensive behavior will not be tolerated.

Moderators can suspend or remove members who violate these rules after warnings, but reserve the right to remove members at any time due to excessive behavior.

From Harrogate to York by Train

By Louis Seibel

During our trip to England in July, 2011, our daughter and son-in-law and two granddaughters and Marie and I took the train from Harrogate, located in North Yorkshire, in Great Brit-

ain to York on a Saturday morning. There were people from all walks of life – from businessmen to teenagers with purple and green hair to women going on “Hen Parties” (known in the US as bachelorette parties).

The train made four stops in the 60 miles between Harrogate and York. Not very many people got off, but more got on. By the time we reached York, the train was completely packed with passengers, with people standing toe to toe in the aisles.

When we exited the train in York, we stopped at a pasty shop for lunch. Pasties (pronounced pass-t) are turnovers filled with meat and potatoes. They were very good. From the station we walked about a half-mile to the National Railway Museum.

Admission to the museum is free. The museum is the largest of its kind in the world. The collections in the museum are

is a full size turntable with the Mallard locomotive on it. They also have a library with types of historical pictures and books on railroading in Great Britain.

One interesting exhibit is a cutaway of a steam, The Atlantic Coastal Express, with descriptions of all the inner workings of a steam engine. There were also locomotives from as far away as China. They also have a full size workshop where the engines and carriages can be serviced and restored.

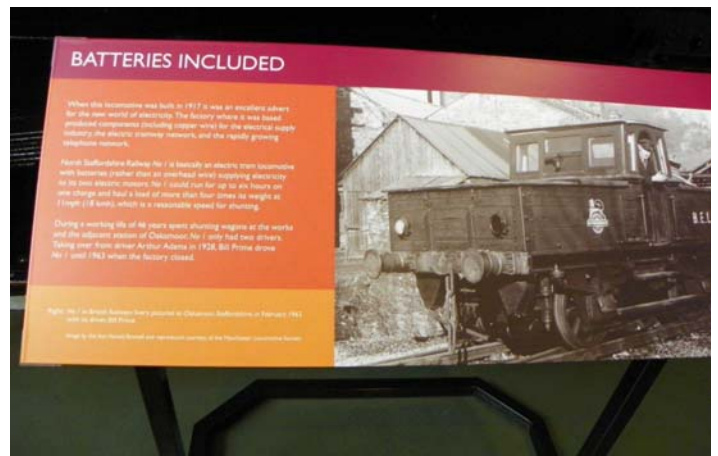

I spent two hours looking around and probably saw less than half of it. I could have stayed all day, but Marie and the

kids were ready to go.

We spent the rest of the day browsing through York which is filled with many shops. The train ride back to Harrogate was much less crowded.

More pictures of the railway museum and other places on our trip to England will be found on <http://www.webshots.com> under MoKanRail.

THE SWITCHING LIST

*=new since last issue

The Switching List contains all known Mid-Continent Region, NMRA, train shows and Division meetings. It also lists all known club shows and swap meets in the Mid-Continent Region (IA, IL, MO, AR, NE, KS, and OK). To list your event, send it to: glhemmingway@cox.net, or Gary Hemmingway, 3201 SW Stone Ave., Topeka, KS 66614. To subscribe, or unsubscribe, to The Switching List send an email to the above link. Look for us on the MCoR web site: www.mcor-nmra.org. Put me on your newsletter list. NOTE NEW E-MAIL ADDRESS

DIVISION MEETINGS

KANSAS CENTRAL DIVISION Meetings are at 1:00 pm. For the full schedule check the MCoR website or email: garyonho@cox.net. The next meeting is **August 13, 2011 Emporia City Library**: 110 East 6th, Emporia, KS. Coming in on interstate turn East on Highway 50, go to Commercial Street (main street going North/South.) Continue east about one block, Library is on your left; the parking lot for library is behind the Museum

GATEWAY DIV. (ST. LOUIS, MO) meets 3rd Monday each month, 7:00 P.M. Odd numbered months: Trinity Lutheran Church, 14088 Clayton Road at Woods Mill Rd (Hwy 141), Ballwin, MO; Even numbered months: VFW Hall, O'Fallon, IL <http://www.gatewaynmra.org/division.htm>

TURKEY CREEK DIV. (KANSAS CITY, MO & KS) monthly meetings 4th Tuesday, 7:00 P.M, Johnson County Offices, NE Branch, 6000 Lamar, Shawnee Mission, KS (DMV Building on SW corner of Lamar and Martway).

WESTERN HERITAGE DIVISION (OMAHA, NE / COUNCIL BLUFFS, IA) meets second Saturday (except June and December) at noon. Sump Library at 2nd & Washington Streets in Papillion. (across from Runza). Visit www.whdnmra.org for more info and a map.

EASTERN IOWA DIVISION

The EID Fall Meeting will be September 18th at the Cedar Rapids Area Chamber of Commerce, 424 First Avenue NE in Cedar Rapids, Iowa. Parking is free on Saturdays, so do not feed the parking meters! We will have a short meeting, silent auction, Bring & Brag / Show & Tell. I'm pulling together an interesting program on modeling. We will start at 9:00 am. The EID Annual / Winter Meeting will be 9am, January 15th, 2011 at the First Christian Church in Davenport, Iowa.

KATE SHELLEY DIVISION now meets the 4th Thursday at the Ames Public Library in Ames, Iowa. Time is 7 Pm to 8:45 PM. Due to Thanksgiving being the 4th Thursday we usually try to meet on the 3rd Thursday. Call Superintendent from NMRA web site for latest information. All are welcome to attend the meetings. The library is located at 515 Douglas Ave. We meet in the upstairs meeting rooms. December we have NO meetings due to the holidays.

PLATTE VALLEY DIV. (HASTINGS, GRAND ISLAND, KEARNEY, NE) meets 2nd Tuesday of each month at 7:00 p.m. in members homes on a rotating basis. Info: John O'Neill, MMR, Div. Dir., 308-384-5011 or jponeill@computer-concepts.com.

WESTERN KANSAS DIVISION (GARDEN CITY, KS) Meets every Tuesday evening from 6:30 P.M. to 9:00 P.M. at 409 1/2 N. Main St. (second floor above "Stage" department store) 7 layouts on display (2-HO, 5-N) Operating sessions available Info: Robert Simmons, Division Director (620) 521-3591 or ras@odsgc.net

INDIAN NATIONS DIVISION Unless otherwise specified, all Indian Nations NMRA meets are held at the new Hardesty Library, 8316 E. 93rd. St., just east of Memorial Rd. in Tulsa, OK. The library opens at 9:00 am and the meetings start at 9:30 am. Web page: www.tulsanmra.org Superintendent - Dave Salamon (918)272-5512 or drs_rr@yahoo.com

OK Heartland Division of the NMRA meets in the even months in the Oklahoma City area. All who are interested in Model railroading are welcome. Info: www.okcnmra.org

Cowboy Line Division (Norfolk, NE) meets 3rd Thursday each month, 7:00 P.M. at HyVee East upstairs meeting room. Corner of 1st Street and Norfolk, Ave. Info: Dennis Brandt, Div. Dir: 402-9925-2415 or email dennisbrandt44@gmail.com for more information.

Division Directors, Train Show Chairs, or Club Show Chairs: Let's get the word out about your 2010 or 2011 event! Get your information to Gary at any of the above addresses. **The Switching List is a service of Mid-Continent Region, NMRA.**

TRAIN SHOWS & MEETS

SEP 24-25, 2011—4TH ANNUAL WESTERN KANSAS TRAIN SHOW, Ellis County Fairgrounds, Hays, KS, Sat: 9 am-5 pm, Sun: 11 am-4 pm, Door prizes, large operating layouts, Adm: \$5.00 adults, 12 and under free w/pd adult, , Info: Kevin Keeler, klk@mchsi.com, 417-838-5615, www.k-n-d-collectibles.com.

OCT 2, 2011--WASHINGTON MODEL RAILROAD TRAIN SHOW AND SWAP MEET 9am to 3pm at the Knights of Columbus hall, 606 West 3rd Street, in Washington, Iowa. All scales. Over 20 vendors; Admission- \$4.00 adults, \$1.00 children 6-12. Vendor tables-\$18.00. For additional info - meworley@iowatelecom.net or call 319-653-3782

HAVE 50 MODEL RAILROADING CLINICS RIGHT IN YOUR LIVING ROOM.

Just because you can't make it to a national convention doesn't mean you have to miss out. Right now the NMRA's Kalmbach Memorial Library has over 50 DVDs of clinics presented at national conventions from 2002 to 2010. Each is available for NMRA members to borrow for the cost of processing and postage.

So you can see clinics on everything from decoders to design, tools to techniques, helixes to highways, and research to resin casting.

All from the comfort of your very own couch.

Visit www.nmra.org and go to the Kalmbach Memorial Library page for a complete listing. Or call the Library at 423-894-8144.

We make it even more fun.

Then, get that popcorn ready.
