## 2013 Turkey Creek Division Modeling Challenge

The 10<sup>th</sup> Annual “Anything Goes”  
That You Can Get Through the Door

May 28<sup>th</sup> at 7pm

Shawnee Mission North High School,  
Metcalf and Johnson Driver,  
Overland Park, Kansas

Hell-O Ray Here,

I'm behind in my duties. I was going to write this letter right after our last meeting, but one thing lead to another and now I am late.

I hope every ones model for the modeling challenges went well. I'm looking forward to seeing all the excellent models and how many we have. I'm sure we will have many because we have many excellent modelers.

I hope to see all of you at the Turkey Creek Division Train meet June 13-16<sup>th</sup>. Put it on you calendar early so you don't forget. See you on the 28<sup>th</sup>

Sincerely,  
Ray Brown  
Superintendent, Turkey Creek Division

# 2013 Mid-Continent Region Convention Update

June 13-16, 2013

Overland Park International Trade Center  
6800 W 115<sup>th</sup> St, Overland Park, Kansas

The MCoR Annual Convention is just around the corner. If you haven't already registered, please do or you will miss out on a really great time! The Train Show is sold out with over 110 tables of goodies to look through. It will be open on both Saturday and Sunday. There will be several operating modular layouts to view in both HO and N scale. An exciting lineup of clinics will be offered through the weekend, including Make & Take clinics on Thursday and Friday evening (see details below). A variety of home layouts in most scales will be available for visiting. Opportunities for operating on selected layouts are available on Friday evening (the Thursday evening session is filled). In addition, a tour of the KCS headquarters building is available on Friday. This will include a guided tour of their museum area and the Harry S. Truman private car (information below). Finally, all other activities that you expect will be there, including the model/photo contest, Banquet, and door prizes. So, again, if you miss this one, you will miss a great convention. Convention Registration opens Thursday afternoon at 2pm at the Courtyard Marriott at 11301 Metcalf, Overland Park, KS. Registration continues at the International Trade Center on Friday morning at 8am. Registration forms are available on the Turkey Creek and MCoR websites. Come and join in the fun!

## **Limited sign-up opportunities:**

This includes information regarding the Make-and-Take Clinics, Layout Operations opportunities, and the Prototype tour that will be offered as part of the convention. I hope that you will be able to take advantage of these opportunities. As noted there are limits on the numbers that can be accommodated, so please respond soon, if you are interested.

## **Make-and-Take Clinics**

### **Thursday night, 7:00pm**

Miles and Fran Hale, MMR's "Building a DPM Modular Structure"

Start your convention with a bang by joining us for building an HO DPM structure. Learn how to build with the Modular System, learn painting and detailing tricks, and take the structure home with you. We will provide all the kits, tools, glue, and paint. You get to have a good time plus enhancing your modeling skills. The clinic will last approximately 2 hours.

Requirements--no charge, no tools required, limit of 20 people, HO only **(7 seats left)**

### **Friday night, 7:00pm**

Marty Vaughn, MMR "Populating Your Layout"

The purpose of any railroad is to move passengers and/or material for use by people from one point to another. If you don't have people on your layout, there isn't any reason for the trains to run. People are one item most lacking from layouts due to the expense and the small variety of poses available in either painted or unpainted figures. Using the methods described in this clinic you can make your own figures for just a few cents each in scale from O to N.

Requirements--no charge, tools required--a pair of small needle nose pliers and a fine wire nipper, limit of 15 people **(5 seats left)**, **you must specify your scale--N to O available**

## **Layout Operating Sessions**

Operating opportunities have been arranged at several layouts. Prior operating experience is preferred...please indicate if you have experience. Positions are limited so respond soon so that you don't miss out. Because of the need to balance participants, you will only be able to sign up for the Thursday night or Friday night sessions (only one session per person)...you will then be assigned to one of the layout opportunities. All sessions run from 6:00 to 9:00pm...as a courtesy to the layout owners, please be prompt.

**Thursday Night – June 13<sup>th</sup> 6-9pm** 5 positions available **(totally filled)**

**Friday Night – June 14<sup>th</sup> 6-9pm** 23 positions available **(17 positions available)**

## **Prototype Tour**

**Friday 3-5pm (bus loading at 2:00pm; departure at 2:15pm)**

You will be able to have a private guided tour of the Kansas City Southern's headquarters building by a KCS executive. The tour will include their museum and private business car "Harry S. Truman". This car is sometimes used for their BOD meetings and is not typically available to the public for tour. The tour will be limited to 25 people, so, again, please respond early to insure a seat. **(6 seats left)**

**Cost - \$15 per person**

**If you have questions, email [captalfred@gmail.com](mailto:captalfred@gmail.com)**

## 2013 Turkey Creek Division Modeling Challenge

by Rusty Rails aka Larry Alfred, MMR

Here we go again! For the 10<sup>th</sup> Annual TCD Modeling Challenge, the theme returns to “Anything Goes.” You may build and enter anything, yes....that’s anything. The only requirement is that it must fit through the meeting room door! This is the theme voted on by the members attending the modeling challenge meeting last summer.

So, be there at the May 28<sup>th</sup> Turkey Creek Division meeting. And, more important, please bring an entry. Your entry doesn’t have to have been built specifically for this event. Any model that you built in the past can be entered. Let me emphasize that the Modeling Challenge program was conceived to encourage everyone to participate in the enjoyment of building and displaying railroad models!! This is intended to be a fun filled event, with the entry possibilities only limited by your imagination, creativity, and enthusiasm to participate.

The judging will be by popular vote, so crowd appeal is important. There will be three places plus honorable mentions awarded for this challenge, plus certificates for the “Most Creative” entry, the “Best Sound/Animation”, and the “Best use of the TC Make & Take Model”. In addition, we will present the “Red Bull Award” for the most whimsical entry. But, again, I want to emphasize that participation is the important aspect of this program. So, if you’re interested in being involved, bring an entry. This will be another fun event!

Testor Corporation

Unfortunately there are changes taking place at the Testor Corporation. They have made the decision to exit production of the Floquil, PollyScale and Pactra brands. Paint will be shipped for a limited amount of time based on availability. The Testor, Model Master and Aztek lines will carry on.
