TO SELECT A LOCOMOTIVE

Below are directions for each of the throttle types

1. **UT4 older plug-in type with two-digit addressing only!**
Select it on dial. Plug in and press Any/Stop button. If a red light comes on, change direction on top of throttle.
2. **UT4 both radio and plug-in types—newer with large knobs!**
Select it on right side of dial. Plug in.
3. **D1300 (Radio throttles with small twin knobs)**
Plug in. Press select button. Dial in loco # using right knob. Press select again.
